DESCRIPTION OF HERITAGE ATTRIBUTES**

Description of Property

The 0.344-hectare property municipally addressed as 21-25 Jones Street, Stoney Creek, is comprised of a single-storey brick building constructed in 1894. It is located on the north side of Jones Street, near the intersection of Jones Street and King Street East, in the historic core of Stoney Creek in the City of Hamilton.

Statement of Cultural Heritage Value or Interest

The brick structure located at 21-25 Jones Street, Stoney Creek, known as the Powerhouse, was constructed in 1894. It has design or physical value as a rare surviving example of an interurban railway powerhouse and as the only surviving structure in Hamilton of the four electric railways which once served Hamilton and the surrounding area. The building is representative of the Romanesque Revival style of architecture and the decorative exterior masonry elements, including the brick parapet, sawtooth courses, corbels, pilasters, and buttresses with stone accents, display a high degree of artisanship.

The property has historical value for its association with the Hamilton, Grimsby and Beamsville Railway, an early electric interurban railway which operated between 1894 and 1931. The Railway provided a vital transportation link for travelers before the proliferation of the automobile and is remembered now for its role in shipping the fruit grown by the orchards of the Niagara Peninsula. It is also associated with the Cataract Power Company, an early hydroelectric company founded by Hamiltonians which pioneered long distance power transmission and which both owned and supplied electricity to the railway. The property demonstrates the work of Walter (1871-1917) and William Stewart (1832-1907) of the firm Stewart and Stewart, a predecessor to the famed Hamilton architectural firm of Stewart and Witton.

A prominent and highly-visible local landmark, the Powerhouse is an important defining feature in the historic core of Stoney Creek and the surrounding residential streetscape on Jones Street. This property is visually, historically, functionally, and

physically linked to its surroundings, being connected to the historic transportation corridor of King Street, and to the historic watercourse of Stoney Creek.
