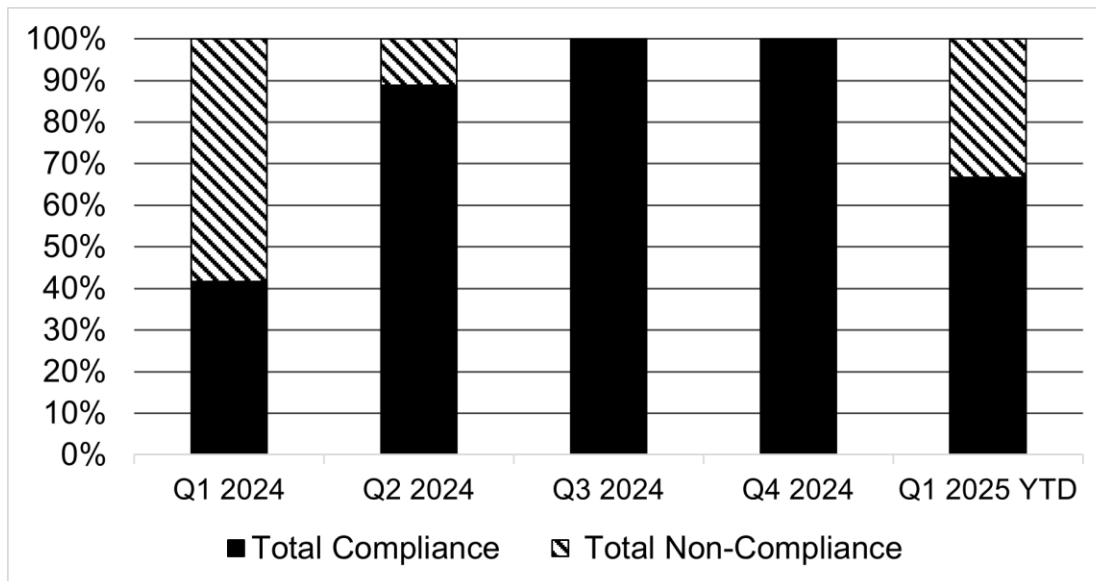

Figure 1: Records Inspection Compliance Monthly Tracking – All Providers

Alternate Text description of Figure 1: Figure 1 (above) presents a quarterly breakdown of total records inspection incidents of compliance versus non-compliance as a percentage of total visits, using stacked vertical columns. The lower portion of each column in solid black shows the proportion of visits by ATS where DARTS and subcontractors were found compliant. The top portion of each column in a black and white diagonal striped pattern show the proportion of non-compliant visits. Performance improved greatly from Q1 to Q4 2024 to 100% compliance from across the last two quarters. In January, there was one on-site visit where one of three providers was found non-complaint based on the sample of vehicle maintenance records reviewed. See also Table 2 (above).
