**Subject:** GRIDS2/MCR plan - May 17th Statutory Public Meeting

Dear clerk,

I would like to submit this letter in support of the **GRIDS 2 / MCR** (Growth Related Integrated Development Strategy / Municipal Comprehensive Review) and its focus on housing intensification; ranging from gentle density in existing low density neighbourhoods (ie. SDUs) to middle density along major arterials, to high density in places like downtown Hamilton.

This is the only responsible way to move forward, and maintains the existing urban boundary, protects our farmland, promotes climate resilience, and more immediately provides affordable and inclusive housing to everyone.

Sincerely, a concern citizen,  
Jill Tonini
