City of Hamilton
Planning Committee

Re: GRIDS2/MCR Statutory Public Meeting

City Council made the important decision in 2021 to hold firm on the urban boundary. We're writing to express our continued support for this important decision.

Land use is one of the biggest contributors to climate change. Stopping sprawl to protect farmland also helps ensure a more climate resilient city and greater food security. Inclusive urban neighbourhoods leveraging existing infrastructure and offering improved transit will provide greater benefit for the common good.

Thank you for listening to the overwhelming voice of Hamiltonians on this important matter.

Regards,

Zoe Green
