LETTER OF SUPPORT - MOHAWK SPORTS PARK FEASIBILITY STUDY

Members of Council:

Ball Construction has been in the construction business for 102 years. We proudly service and construct buildings all across southern Ontario. We have completed many projects in and around the Hamilton area. We are a 4th generation family owned organization that has deep roots tied to building sports facilities for various communities around the area.

Ball Construction is pleased to support the efforts of the Mohawk Sports Park Council towards the completion of a comprehensive feasibility study which will support the development of a more inclusive and accessible public space and in particular, support the needs of several community organizations and equity-deserving groups across our community).

We bring along a proactive and collaborative team to the design and development of a sports park facility like this. We will provide our deep knowledge and historical data to the design and budgeting of the building.

In conclusion, we are happy to support a project like this for the residents of Hamilton and the surrounding area.

Yours truly,

A handwritten signature in black ink, appearing to read 'Rod Aitken'.

Rod Aitken,
Vice President
