Councillor Francis introduced the following Notice of Motion:

11.2 Use of Local Steel for Right of Way Signage Posts

WHEREAS, the City of Hamilton has historically utilized long lasting galvanized steel posts for roadway signage such as parking signs, stop signs and right-of-way signage;

Please refer to the June 18, 2025, Council Minutes for the disposition of these matters.

WHEREAS, during the COVID-19 pandemic, City staff made an internal decision to substitute these steel posts with 4x4 treated wooden posts due to a temporary rise in steel prices;

WHEREAS, the wooden posts being used are significantly less durable, with an estimated lifespan of 5 to 8 years compared to the 20+ years typically offered by galvanized steel posts, resulting in higher long-term maintenance and replacement and staffing costs;

WHEREAS, treated wooden posts are difficult to responsibly dispose of due to the chemical compounds used to elongate their lifespan and ultimately must be landfilled at their end of their service life;

WHEREAS, end-of-life steel posts are highly recyclable, and steel recycling is considered a crucial component of the circular economy; and

WHEREAS, Hamilton has a proud identity as a steel city and has repeatedly emphasized the importance of buying local and supporting local industry, particularly in light of ongoing U.S. tariffs that threaten Canadian steel exports.

THEREFORE, BE IT RESOLVED:

That staff be directed to report back to Public Works Committee with a plan that prioritizes Hamilton steel for roadway signage posts, including cost implications.
