

## RE: Support for the Elfrida Urban Boundary Expansion

Dear Mayor and Members of Hamilton City Council,

I'm writing to you as a father/grandfather who grew up in Hamilton and would like the ability for my children and grandchildren to live here. But every time they look at the housing market, it feels like that thought is slipping away. Prices are climbing fast, and there just aren't enough homes for growing families.

I and my family, support the Elfrida urban boundary expansion because we need more homes built in Hamilton. We need options for the young families like mine who are currently living outside of Hamilton, to come back and raise their kids in the community we call Hamilton.

Please give families like mine the opportunity to come back to Hamilton and afford a home. We're asking you to vote for growth that includes them.

Sincerely,

Peter Oddi
