**Subject:** Support for More Building in Hamilton (Elfrida Community)

**External Email:** Use caution with links and attachments

Dear Mayor and Members of Hamilton City Council,

My name is George Shomali, and I am writing this email on behalf of the entire staff of EJS Engineering Inc. We are a family owned Mechanical, Electrical, and Plumbing (MEP) Engineering design firm based in Milton and we have been fortunate enough to work on many residential projects in the great City of Hamilton and adjacent regions.

We have been in the engineering field for a while, and I know how important it is to have steady work. When there are new housing projects, small businesses like us can count on steady jobs. When there's no new construction projects, it's hard to stay working and support our team and their families.

I write this letter in order to ask that you support more development in Hamilton. Building more homes means more work for local trades, engineers, architects, etc. It helps us stay here, raise our families, and train the next generation. It also helps expand this beautiful city and offer more homes to families in this time of shortages.

We ask that you consider approval of development for the Elfrida Community area.

Sincerely,

**George Shomali**

Director of Electrical Engineering | B.A.Sc., P.Eng., LEED Green Associate
