3. PURPOSE OF THE APPLICATION

Additional sheets can be submitted if there is not sufficient room to answer the following questions. Additional sheets must be clearly labelled

All dimensions in the application form are to be provided in metric units (millimetres, metres, hectares, etc.)

3.1 Nature and extent of relief applied for:

Relief is requested from the required minimum side yard setback provision of the Zoning By-law to permit the retention of an existing accessory structure (shed) constructed directly on the property line. The extent of relief sought is to reduce the side yard setback from the required distance to 0.0 metres.

☐ Second Dwelling Unit

☐ Reconstruction of Existing Dwelling

3.2 Why it is not possible to comply with the provisions of the By-law?

Due to spatial limitations on the property and existing site conditions, it was not feasible to maintain the required setback distance from the side lot line for the construction of the accessory structure. The shed was positioned in a manner that best accommodated the functional use of the rear yard without obstructing access or creating inefficiencies, and was constructed in good faith without full awareness of the setback provision. The relief is being sought to legalize the structure as built, which continues to serve a practical purpose without negatively impacting adjacent properties.
