Subject: We care about Climate Action

External Email: Use caution with links and attachments.

Hi there,

I heard there were budget cuts happening to climate actions like public transport, biodiversity, tree planting, and even the office for climate change initiative itself.

As a Hamiltonian I am so disappointed to hear this. Hamilton needs to do its part to help the fight against climate change and set a precedent. After last summer's terrible heat waves this city needs to continue to prepare for this future.

Don't put this off till the next generation!!! Hamiltonians care about this now and want to do our part NOW.

We bike, We reduce, We recycle, We garden, We take public transport.

The only people who want to decrease this budget is the City Council.

Please don't defund climate action!

Alissa Harvey
