**Subject:** Environmental initiatives and programs in the City of Hamilton

**External Email:** Use caution with links and attachments.

Dear Mayor Horwath and councillors,

In response to the Planning Committee meeting held on Feb 4 and as a resident in Ward 13 the following items are offered for consideration:

It is essential that the City of Hamilton continue to support and expand the budgets for climate action initiatives particularly in light of the climate changes that are upon us. These climate actions include protecting Hamilton's environment, increasing tree cover and supporting/ increasing biodiversity . Continued, incremental investment in cycling and public transit will contribute significantly to these initiatives and make a more sustainable and healthier city for all.

Respectfully submitted,

Jean Jacobs
