Subject: NO Budget Cuts to Environmental Protections.

External Email: Use caution with links and attachments.

PLEASE DO NOT CUT FUNDING FOR ENVIRONMENTAL PROTECTIONS!!

If we irreparably damage our ecosystem, nothing else really matters. The costs for broken living environments will echo and ripple through time to your grandchildren children.

If we don't take heed to the needs of our living environment, we will regret it. Harshly. If there is severe flooding because of paving over wetlands- what will you do then??

If you dont invest in the cleanup of Cootes Paradise, who going to want to live in those condos in Hamilton a decade from now? When the MOAT BIODIVERSE REGION IN CANADA is stinking and rotten and unkempt?

If part of what makes Hamilton and in the grand scheme, Canada, a desireable, Profitable place to live is its natural beauty---- why wouldn't we protect it?

Thank you for considering this pressing issue.

Ashley, Hamilton resident.
