Subject: Cutting Budget at the wrong Time and in the wrong Place

External Email: Use caution with links and attachments.

Hi,

I am very concerned about plans to cut funds for environment and climate programs. Especially now that

“Drill Bay Drill” Advocates, and the Provincial Government are trying hard to look the other way when it comes to preservation of sensitive environments and remediation of a damaged climate, please let Hamilton stand out as a responsible City with a responsible Council that stands up to irresponsible actors that don’t care about everyone’s future lives and health. To sacrifice and give up on what sustains us is not the way to go. Money is always tight, funding for these important programs should be increased and not cut.

Please vote against budget cuts and support a healthy environment and assure future generations have clean air to breathe!

Thank you,

Christiane de Savigny
