Subject: Opposing 392, 398, 400, 406 and 412 Wilson Street build

External Email: Use caution with links and attachments.

I understand there is a proposal for an 8-STOREY building at 392, 398, 400, 406 and 412 Wilson Street East and Academy within our downtown Village core.

This is a terrible plan given that there traffic in this entire area is already far past the capacity of the roads.

The building will look very out of place in this location and will detract from the village atmosphere. We do need more housing but this area does not have the infrastructure to support this.

Please provide me with a receipt of this email.

Thank you,

Sharon Hall
