Subject: INSANE 8-Storey Building Proposal in Ancaster

External Email: Use caution with links and attachments.

To Whom it May Concern:

As somebody who grew up in Ancaster, and still loves the town greatly, I am incensed by the ridiculous idea that an 8-storey building belongs in the village centre. There is no way in hell a building that large belongs in what should be preserved as a heritage village. It will stand out like a dog's bollocks. and further add to the damage that has already been done to what was in my day, a beautiful little farming village.

Ancaster has been allowed to grow like a weed, all out of proportion to what should have been allowed there. Please do not further damage my hometown

May I please have an email receipt as proof that my email actually arrived?

Yours truly,

David Buck
