Subject: Proposed monster building in Ancaster

External Email: Use caution with links and attachments.

I am appalled at the thought of an 8 story building on Ancaster's Main Street. Where did the 3 story limit go? Why is a project so not in keeping with the heritage character of our village even being brought forth. I have been a resident of Ancaster for over 50 years and live in a house built in 1853. I have been very careful to maintain one of the very early buildings in Ancaster and continue to maintain its heritage aspects. Please do not let this project proceed.
