Hi Brenda;

We hope things will work out for you concerning the Stoney Creek fiasco. Its something that Mitchell left you to solve and what to him had advantage we suspect. Lots of luck.

I'm sorry to hear about Whitehead and the problems he will have and the burden on the taxpayers. You really have to watch what you say these days. I guess the e-mailing he sent to councillors had a lot to do with the judgement and fine he received. There's the legal fees to consider as well.

We were quite concerned the animal control officer (Bain) might loose her job with the proposed changes the city wants to impose. She is very well liked in Glanbrook and goes out of her way to solve our problems. Perhaps she can be employed under the new situation at the Dartnal Rd. SPCA location which is relatively in our geographical area, not to far from the area she was already covering.
