CORPORATE STRATEGIC PLAN (Linkage to Desired End Results)

Focus Areas: 1. Skilled, Innovative and Respectful Organization, 2. Financial Sustainability, 3. Intergovernmental Relationships, 4. Growing Our Economy, 5. Social Development, 6. Environmental Stewardship, 7. Healthy Community

Skilled, Innovative & Respectful Organization

- ◆ A culture of excellence;
- ◆ More innovation, greater teamwork, better client focus;
- ◆ Protecting employees from second-hand smoke at their work site shows the City of Hamilton considers their employee's health and safety. This By-law implementation requires teamwork between several city departments.

Financial Sustainability

Growing Our Economy

- ◆ A visitor and convention destination;
- ◆ The presence of littered cigarette butts reduces the appeal of the city to residents, workers and visitors. Clean outdoor recreational areas will appeal to visitors who come to our City to enjoy our green space.

Social Development

- ◆ Residents in need have access to adequate support services;
- ◆ Research has shown that smoke-free environments support people who quit to remain smoke-free; youth are less likely to start smoking if they are not exposed to others role modelling the behaviour; and restrictions on where individuals are permitted to smoke is associated with increased cessation rates.

Environmental Stewardship

- ◆ Natural resources are protected and enhanced;
- ◆ Reduced impact of City activities on the environment;
- ◆ Cigarette butts are the most littered item across the globe, and cause irreparable damage to the environment, as they are not entirely biodegradable. Careless smoking and disposal of burning cigarette butts are a major cause of forest fires.

Healthy Community

- ◆ Adequate access to food, water, shelter and income, safety, work, recreation and support for all (Human Services);
- ◆ There is no safe level of exposure to second-hand smoke and studies have shown that second-hand smoke exposure outdoors can be substantial.
