Subject: Licensing for owners of apartments

I would like to register my support for the proposed by-law which will make it easier to ensure that landlords fulfill their responsibilities towards tenants and neighbours. Our neighbourhood has lots of triplexes, most of which I assume are illegal. I have no problem with multiple-unit houses, if landlords maintain the properties. Judging from the exteriors and yards of many of these properties, I can only assume that maintenance and safety measures inside are just as shoddy.

Everyone has a right to decent housing and those who provide it must be held accountable for doing it right.
