Rezoning By-Law, Parking RVs in your own driveway which you pay A lot of tax for, and its your lot, the trailer is not blocking any traffic, it is set way back with enough room to park my truck behind it, I have been parking the trailer every summer for 5 1/2 months for the last 7 yrs, and just 2 months ago was asked would I please move it,, Why are they just changing the bylaw for Stoney Creek, why not Hamilton, I thought Stoney Creek was Hamilton, since the new zoning about 10 years ago, lots of trailers in my neighborhood, on the mountain still have there trailers parked in there driveways, I only park it in the summer has we go south for 6 months in the winter, you can walk around the trailer and access the back gate in case of fire, so what's the big deal, has I said I pay my Taxes so I should be able to park the trailer in it,
