Subject: Licensing of Rental Housing

To The Planning Committee,

Please be aware that there is overwhelming support for the proper licensing of rental housing in the Westdale area. As a 40 yr. resident in the same house I have seen many changes and understand that the area has to accommodate student housing, however it is critical that rental housing is in compliance with building and fire codes. We should not wait for a disaster to put in place the proper oversight. Licensing which is monitored is the only logical way to do this.

Thank you for your consideration,
