Subject: York plan

As a resident of the strathcona neighborhood, I am strongly opposed to the proposed destruction/rezoning of current residences to make a plan "fit". Your plans should be working around constituents homes, not pushing families out of their homes and neighborhood! This mistake was already made once at the cost of the neighborhood, please let's not make the mistake even bigger. Please stop this plan from going forward. I especially don't want counsel members who don't even live in the neighborhood to make a decision like this for me.

Yours truly

Scott Hannam
