Subject: Locke St Area Traffic Safety
Hi Andy

I would like to address how residents using the alley between Pine St and Tuckett, and Locke St and Pearl St can enter traffic, both pedestrian and vehicular, safely.

In my opinion using a convex mirror properly mounted, is the easiest remedy for these residents to address oncoming traffic.

If reducing the speed on Locke St to 40 km/hr in the center of the Business district can also be addressed at the same time, I'd like that addressed too. My guess is that may be for another day and another department.

Indeed, I'd like my contact information left off the Public Record if possible. I can certainly be reached by your office.

Please let me know if this is sufficient detail to get things rolling.

Regards
Chuck Farrauto
