To the City Clerk,

I have written a letter to Brenda Johnson in regards to animal control. I would like to include it, so all councillors can see it and maybe it can be included in the agenda when the subject comes up, in relation to altering the way animal control is done in Glanbrook. A first-hand experience which was successful due to swift timing and knowledge of the area and animal behaviour was very important in solving a problem which could have been ugly had there been delay, considering there are many children living in the area. Thank you very much.
